Drugs and Medicine Made From Plants

Community gardens can bring together diverse groups of people and it's possible to make these spaces widely inclusive and accessible. When combined with other compounds into a preparation called TAC, cocaine can also treat minor skin lacerations, since the drug is an effective vasoconstrictor narrows blood vessels. Withering realised the gypsy had used a herbal remedy containing a variety of components, including foxglove, and extracted the active ingredient digitalis.

Dr Gemma Newman

But such projects tend to be run by charitable organisations — often relying on grant funding to employ staff and provide equipment. This plant holds immense significance in the Hindu religion.

Herbal Medicine

Hand safety in the garden Many gardening injuries involve the hands and fingers. Cocaine: Leaves of the coca plant *Erythroxylum coca* have been used as a stimulant in South America for thousands of years. LSD: Lysergic acid diethylamide, usually known as , is a hallucinogen that's been widely used for decades, but recent research finds it has some potential for treating alcoholism.

8 Landscape Design Principles

Several major hospital systems even offer it as part of their rehabilitation services for a variety of physical and mental ailments.
