Ruh baik berkumpul dengan ruh baik, ruh jahat berkumpul dengan ruh jahat. As these three examples from the present collection of essays indicate, also the bogeymen of Salafis and Salafists are naturally bound to temporally and spatially shifting contexts, be it that they do only occur in certain regions and at certain times, or that the intensity in which they are highlighted either increases or decreases. Only in cases where these systems might collide with those for Arabic, additional explanation is provided at the beginning of the respective contribution.
