Air Pollution: Atmospheric Pollution, Gaseous Pollutants, Particulate Matter

Pollution by sulfur oxide is mainly caused by two components of sulfur dioxide SO_2 and sulfur trioxide SO_3 sulfur trioxide SO_3 , both called sulfur oxides SO_x . Air monitoring equipment at an air field. In contrast to the ozone found in the upper atmosphere stratospheric ozone, which protects the planet from ultraviolet radiation, ground level or tropospheric ozone is a lung irritant and a danger to human health.

Air Pollution: Atmospheric Pollution, Gaseous Pollutants, Particulate Matter

Washington, DC: National Academy Press. Spatial distribution of acid deposition.

Air Pollution

One major source for SO_2 is the combustion of petroleum products that contain sulphur.

12 Harmful Chemicals in Air Pollution

This phenomenon is common in large cities as well as in industrial area that produce gases that contain substances above the limits and there are many harmful chemicals in air pollution.
