## Molex Invests in the Future of Technology Through Robotics

The technology worked quite well, although there was a need to correct some of the words.

## Towards intellectual freedom in an AI Ethics Global Community

Genome-editing was undertaken to remove the CCR5 gene which allows the HIV to infect cells. However, it can also lead to some problems, such as how to 1 use it ethically and legally; 2 acquire the real consent from the experimental subjects; 3 how to penalize the genome-editing research for non-medical reasons, etc. I will be a teacher that promote positive

It remains to be seen whether better elections will translate into good democratic governance, but the prospects are bright. Another one is that of whistleblowers.

### **The Republic of Technology**

Since educational technologies and innovative teaching are imperative in today's time.

### **REFLECTIONS: TEACHING PROFESSION SUBJECT**

As with most experiences in 2020, the pandemic made for an unusual year for the FIRST program, but participants were undaunted.
