**Browse subject: Islam**

Its literature is illuminating; yet its set phraseology shaped by the thought-forms of a worn-out metaphysics has rather a deadening effect on the modern mind.

**Browse subject: Islam**

The scientific observation of Nature keeps us in close contact with the behaviour of Reality, and thus sharpens our inner perception for a deeper vision of it.

**Concepts of GOD: 2009**

These exist in opposed couples, as life and death, motion and rest, and possess practically no duration.

**Concepts of GOD: 2009**

Rather a more blurry image was the result.
