## China: the world's biggest ice cream market

They found the coating makes streets feel hotter, because the glare intensifies thermal radiation. But climate scientists are underwhelmed. Market segmentation involves the subdividing of a market into distinct subgroups of customers, where any subgroup can be selected as a target market to be met with a distinct marketing mix.

## China: the world's biggest ice cream market

I'll also note that Martha Stewart turns 75 on August 3 this year! In 2016, the category with the greatest availability was fresh and frozen fish at 6 pounds per person, followed by fresh and frozen shellfish at 5.

On the road for about 21 days, she got wet on all but 3, whether that was spending an entire afternoon on a golden beach on Vancouver Island or snatching a few minutes to access a highway-side river in Idaho. Used mainly as an emulsifier, to lower the surface tension of water so allowing the better combining of oils, fats and water, and as a stabiliser, to prevent separation.
