## Records of International Conferences, Commissions, and Expositions

The tone of the local level coordination moves from temporary to permanent as the goal of establishing a unified voice for local and regional authorities from across the globe and working on a spectrum of activities is finalised. The decision is taken to hold a congress in Paris, and to organise an international documentation centre.

## History of our movement

Numbered documents, 1947, with subject index. The Monde Bilingue announces that this experiment will be composed of 3 stages: implementation of bilingual pedagogical systems in French and British towns where both languages will be taught to children at primary school; creation of bilingual towns; town twinning to allow exchanges of teachers and assistants and trade union material.

## FFA

Mr Montagu Harris attends this congress and pays special homage to Emile Vinck.

## All Events

Records relating to tariff negotiations with Latin American countries, 1937-52. The water taboo illustrates connections among several categories of norms, covering anthropocentric and intrinsic value perspectives on water. Section arrived in Rio de Janeiro, September 7, 1948; and final report was approved by the commission, February 7, 1949.
