bio — The Anaïs Nin Foundation

It was the name of a popular French perfume in the 1980s, but most importantly it is a French name. Personality Intelligence Anaïs is by far the most intelligent member of her family, although her young age prevents her from really being noticed and taken seriously by adults.

Anaïs Gallagher Height, Weight, Age, Boyfriend, Facts, Biography

She spent her childhood and early life in Europe. Her first book of fiction, 1936 , contains heavily veiled allusions to a brief sexual relationship Nin had with her father in 1933: While visiting her estranged father in France, the then-thirty-year-old Nin had a brief incestuous sexual relationship with him.

Anaïs La Valette

Want to broaden your perspective with some thought-provoking words? While living a dual life in New York and Los Angeles during the 1960s, Nin made the risky decision to allow her diary to be published, though she chose to remove the most private details of her romantic relationships.

Anaïs Nin

Nin found herself, then in her sixties and seventies, playing the part of an international feminist icon.
