History of the Internet

At the conference, presented work on for data communications and mentioned the work of at.

A History of Internet Spying, Part 2

It forms the links between the physical and human dimensions. Such a writing must be secured from public scrutiny. We know that no plane hit the Pentagon or building 7, but what about the planes that we have all seen footage of hitting the twin towers.

Wisdom Quarterly: American Buddhist Journal: The Department of Mad Scientists (DARPA)

Sadly for us, that cover became reality. United States Navy, is one of the managers of the HAARP facility in Alaska.

Special Access Programs And The Pentagon's Ecosystem Of Secrecy

AI making the life and death calls in nanoseconds involving, perhaps millions of human lives? Yes, this is a major concern for potential abuse and waste, but at the same time it has become somewhat essential to making huge qualitative leaps in defense-related technologies.

The Department of Mad Scientists: How DARPA Is Remaking Our World, from the Internet to Artificial Limbs by Michael Belfiore

State Department chief medical officer Herbert Pollack sanitized the conclusions of the Lilienfeld report. Now, it's hard to argue that the flagrant rejection of national directives wasn't a recipe for disaster waiting to happen.
