This is the third round of brain research funding for this program.

APA review confirms link between playing violent video games and aggression

Journal of Sex and Marital Therapy, 23, 276—290. Academic studies have come up with different ways of understanding the triggers for the aggressive behavior.

Multidisciplinary Research

One of the problems confronting aggression researchers is the extensive body of multidisciplinary data that is difficult to synthesize to generate new directions in research. When such attacks occur, they tend to lead to retaliation and the possibility of escalation. Our argument centers on the idea that anthropology should be re-instantiated within cognitive science as an equal partner with the other foundational sub-disciplines.
