## Medication

SAMHSA may extend the time in which a certification remains in effect under this paragraph on a case-by-case basis.

## Medication

This system is required to comply with all Federal and State reporting requirements relevant to opioid drugs approved for use in treatment of opioid use disorder. MAT is primarily used for the treatment of addiction to opioids such as heroin and prescription pain relievers that contain opiates.

## SUBPART

The program sponsor, in any event, must be able to document that these services are fully and reasonably available to patients. Three copies of an application for certification must be submitted by the OTP to the address identified in § 8.

## SUBPART

These MAT medications are safe to use for months, years, or even a lifetime. Following such investigation, SAMHSA may determine that the OTP's certification should no longer be in effect, at which time SAMHSA will initiate procedures to revoke the facility's certification in accordance with § 8.

## Medication

SAMHSA will approve or deny such exemptions at the time of application, or any time thereafter, if appropriate.

## SUBPART

The program sponsor shall agree on behalf of the OTP to adhere to all requirements set forth in this part and any regulations regarding the use of opioid agonist treatment medications in the treatment of opioid use disorder which may be promulgated in the future. According to the World

Health Organization WHO , naloxone is one of a number of. MAT has proved to be clinically effective and to significantly reduce the need for inpatient detoxification services for these individuals.
