### Best of South Korea: War/Military Movies

Another legend preserves the Silla people's love for Queen Seondeok. Although Lady Hyegyong nor Haboush could ascertain the specific cause of Crown Prince Sado's illness, and Lady Hyegyong's anecdotal evidence is hardly scientific, I would like to offer "hwabyong", or, in Korean, "fire disease" or "anger disease".

### The Red Queen by Margaret Drabble

And now she must find the only person who can help her carry on this legacy... someone she abandoned years ago. Haboush's detailed translation and commentary of 3 of Lady Hong's diaries makes the tragedy come to life.

Love, even obligatory one, brings out the best kind of courage, and Korean women have not been immune to love and courage.

### Ayodhya's Royal South Korean Connection We Bet You Didn't Know About

The memoirs are, successively, a family injunction, a memorial, a biography, and a historiography. Lady Hyegyong's memoirs are some of the only pre-modern autobiographies written by a woman in East Asia. Their thoughts and secrets literally swirl across the pages as Porter plays with the typography to illustrate the way even a tiny community can be filled with human emotion.

Indeed, only the most tragic of Shakespeare's tragedies could possibly match the sad story of Prince Sado. I think it might have been partially that which distanced me from the characters. He was killed by NPCs created by the bug due to being Jin-woo's ally.

### Lady Hyegyeong

Time travel gone really bad. Jahyun Haboush has done a commendable job of introducing this compelling story to wider readers.

## **Women of Joseon**

We take abuse seriously in our discussion boards. This book was so interesting. In the first memoir, she describes the basic shape of her life, her family, and the values of society that defined her role in it.

## **Best of South Korea: War/Military Movies**

What is especially unique about Lady Hyegyong's decision to write a memorial in defense of her brother and uncle is the format she chose. His rulership has been called one of the most brilliant reigns of all the Joseon Dynasty. Jacob, who is half-Jewish and half-Indian, captures her discussions with her young son about race, love, sexuality, all in the context of the current American political reality.
