Distance from Kasai (Hyōgo) to Nagoya (Aichi)

Rooms are simply decorated with bright colours, and the on-site restaurant is open for breakfast. Because body temperature was inversely correlated with anesthesia time and with total amount of fluid, patients receiving laparoscopic surgery developed hypothermia as a result of extended duration of surgery and pneumoperitoneum.

2001 Cerezo Osaka season

Abraham E, Parry T, Ghafoor A. Increasing trends in cervical cancer mortality among young Japanese women below the age of 50 years: an analysis using the Kanagawa population-based Cancer Registry, 1975—2012.

No association between HPV vaccine and reported post

Guestrooms offer both air-conditioning and heating facilities.

KASAI, Nagoya

Hussain MH, Alizai N, Patel B. A width of 0 indicates the element is not visible.

Distance from Kasai to Nagoya

Free WiFi is available throughout the property. Hence, it is difficult to include many patients.

No association between HPV vaccine and reported post

Laparoscopic Kasai portoenterostomy for biliary atresia.

KASAI, Nagoya

Please note that a Project Euclid web account does not automatically grant access to full-text content. Cohorts 2, 3, 4, and 5 include girls who were vaccinated at 11—14 years of age plus their unvaccinated controls.
