### Lenin Trotsky and Stalin : Orlando Figes

Attitude to the working class—the greatest revolutionary force in history—has always been like a watershed, which has made it possible to distinguish between real and false revolutionaries. There was a group in Petrograd which was the same programmatically as the Bolshevik Party, but organisationally independent.

### In Memory of Leon Trotsky

Trotsky himself supported this idea, writing criticisms not only of Stalin's strategic blunders but also of the way Stalin had consolidated power and abolished all democracy within the Communist Party.

### Short note on Trotsky Vs. Lenin

Trotskyites are in fact bourgeois politicians and work for the imperialists—still, they find themselves unable to team up with anyone in America or whichever country they inhabit, so they choose to act like communists and claim the crown of communism. In the concentration camps there were to be found whole families, including the children. Trotsky had previously suggested that Lenin's method of organisation would lead to a dictatorship, but it is important to emphasise that after 1917 orthodox Trotskyists argue that the loss of democracy in the Soviet Union was caused by the failure of the revolution to spread internationally and the consequent wars, isolation, and imperialist intervention, not the Bolshevik style of organisation.

### Trotskyite Revisionism

Those qualities which Lenin valued in Stalin — stubbornness of character and craftiness — remained, of course, even then.

### How Lenin and the Bolsheviks Remained in Power Between...

Contemporary Trotskyism: Its Anti-Revolutionary Nature. A political reaction after the enormous effort of the years of the insurrection and the Civil War was inevitable.
