### Formation of a Bubble and Its Background

However, judging from comments by the two most successful firms in the sector, the aim of such policy may not be the enhancement of workplace diversity, but rather the efficient diffusion of corporate culture and management practices developed in Japan into overseas operations. Its aim was to hold a meeting annually, separately to the directors' meetings, and have concentrated discussions on educational reform issues that could not be deliberated in the National Faculty of Business Administration Directors Council, which was formed in 1976. ### ISS: Research Staff: Naofumi Nakamura

Jacoby studied the activities of foreign financial investors in Japan and also concluded that their impact on HR policies, and even corporate governance reform as a whole, has been modest at best. This evolution is emblematic of the birth of management science in Japan as a new discipline independent from economics. Thorough discussion of the pros and cons of strategies and strong leadership are essential for overcoming the trade-off.
