## **Introduction to Tantras and Their Philosophy**

The center, by virtue of being a dot of zero dimensions, is visualized as the ultimate entity beyond which a thing or energy cannot be contracted or condensed. They are thought to produce instant results by awakening the energy which empowers spiritual growth. It is, for example, often depicted as springing from Vishnu's navel, supporting and giving birth to Brahma, the creator.

## **Introduction to Tantras and Their Philosophy**

One common fact that everyone seems to agree on, is that tantra is associated with the balance of energy and the interweaving of these energies to

create a positive outcome. One of the most popular tantric sex teachings, which comes from tantric meditation and awareness, is the practice of prolonged sexual intercourse without ejaculation. One may naturally doubt how far this is in keeping with the true spirit of religion which, however, has no absolute standard, varying from people to people.

. Further the forces governing the cosmos on the macro-level are believed to govern the individual in the micro-level. They are regulators, coordinators of the various energies, and act as genuine antennas for energy exchange between man human microcosm and the Universe macrocosm , or between human beings.
