**20200117**

Infrastructure Modernization Our transmission grid is in need of major investments to relieve bottlenecks that raise the cost of delivering power where it is most needed near New York City.

**20201203**

It finances its operations through the sale of bonds and revenues earned in large part through sales of electricity. Quinones GQEnergy is the President and Chief Executive Officer of the New York Power Authority. Quinones has served as Senior Vice President of Energy and Telecommunications for the New York City Economic Development Corporation during the Bloomberg Administration, and worked for Con Edison for 16 years.

**20190815**

It finances its operations through the sale of bonds and revenues earned in large part through sales of electricity. We use clear, concise language to convey the idea that participation is easy and will not disrupt work. More than 80 percent of the electricity NYPA produces is clean renewable hydropower.

### NYPA Initiatives

The CLCPA also directs New York State's agencies and authorities to work collaboratively with stakeholders to develop a plan to reduce greenhouse gas emissions 85 percent from 1990 levels by 2050, and to work toward a goal of investing 40 percent of clean energy and energy efficiency resources to benefit disadvantaged communities. An outstanding engineering achievement and a happy example of teamwork and cooperation between private and public enterprises.

**20200117**

NYPA uses no tax money or state credit.

**20201203**

Environmental justice staff work with partners to identify opportunities for long-term energy services projects that can be provided at no cost to communities.

**20201203**

NYPA and the municipalities are in the process of designing additional smart street lighting features to be implemented following completion of the LED fixture upgrades. NYPA uses no tax money or state credit. Kennedy Airport SUNY Buffalo also recently received some upgrades in the form of HVAC and lighting.

**New York Power Authority to upgrade Grand Central Terminal platform lighting with energy**

New energy efficient air-handler installed at SUNY Buffalo Back when Hurricane Sandy hit, Coney Island Hospital was greatly affected by flooding.
