The OCS program is also significant because it represents to me a theme that I want to discuss today in my remarks. The Records of the Wind Science and Engineering Research Center WISE and National Wind Institute NWI include reports, maps, photographs, slides, conference proceedings, and data records documenting such phenomena as wind speeds. Emphasizing the unique and valuable contributions of these diverse groups, multicultural education enabled the students to retain and develop their cultural identity while learning the values and lifestyles of mainstream

America.
