The Faerie Queene by Edmund Spenser

The Redcross Knight, for example, personifies the single private virtue of holiness, while Prince Arthur stands for that perfect manhood which combines all the moral qualities; Una represents abstract truth, while Gloriana symbolizes the union of all the virtues in perfect womanhood. And so, Redcrosse's education continues within the intricate world Spenser imagines. Many of the greatest poets have delighted to call him master, and have shown him the same loving reverence which he gave to Chaucer.

The Faerie Queene

Instead of focusing on handsome blue eyes and yes, The Faerie Queene had some rugged knights he instead solemnly hammers into readers the importance of purity, chastity, male headship, and the beauty of sexuality as God intended it.

An end-stopped line has a pause at the end, usually indicated by some mark of punctuation. There are images in this poem I'll never forget, along with one of the most compelling and admirable female warriors ever realized in a poem, Britomart.

Fairy Queen

SIR, Knowing how doubtfully all Allegories may be constructed, and this booke of mine, which I have entituled The Faery Queene, being a continued Allegorie, or darke conceit, I have thought good, as well for avoyding of jealous opinions and misconstructions, as also for your better light in reading thereof, being so, by you commanded to discover unto you the generall intention and meaning, which in the whole course thereof I have fashioned, without expressing of any particular purposes, or by-accidents therein occasioned.
