The flat-brimmed Stetson was the third-time-lucky alternative. It is a relief now, Carl says, to be able to proudly display his sweat lodge — a sacred ceremonial space inside a closed, circular structure for praying and cleansing via steaming hot rocks — in his yard. Monuments and statuary were used in Germany, France, and the United States to good effect.

A symbolic language of identity at odds with the national equivalent has consistently acted as a counterweight to the notion of Canadian-ness.

### 12.6 Building a National Identity

You would need the approval of the Canadian government, the United States government and the Mexican government.
