**NCDA&CS**

By the 15th century, toxic chemicals such as , , and were being applied to crops to kill pests.

**Pesticide Use Site Index**

However, FIFRA does not require EPA to balance the risks and benefits for each exposed group individually.

**EU Pesticides Database**

For instance, the Pest Control Products Board PCPB is responsible for pesticide registration in China while the International Plant Protection Convention IPPC is in charge of that of Yemen.

**Product Registration**

An end-use formulation is a product that bears directions for use on the label.

**Pesticide Registration Manual: Chapter 2**

The 2015 WPS rule Ref. Details of UK plant protection product authorisations can be found on our. Contacts for Additional Information For additional information concerning a specific application for registration, contact the Branch Chief or Product Manager assigned to the active ingredient contained in your product.

**Guidelines for Pesticide Registration**

The OECD guidance helps to ensure that dossiers and monographs are clear and complete, and that information is easy to find. EPA also disagrees with the commenters that requiring the AEZ only on the establishment would be more complex or confusing.

**Bureau of Plant Industries Online System**

For complete information about, and access to, our official publications and services, go to on NARA's archives. Frequently, commenters noted that drift does not stop at boundary lines, that the AEZ requirement is necessary and not confusing. One commenter argued that EPA's proposal also completely ignored the more protective and equally straight-forward and enforceable option of setting a standard AEZ of 100 feet for all ground spray applications.
