Human Chimera: How a Man's Unborn Twin Fathered His Child

Women and children are rarely mentioned. Surprisingly, however, most teen fathers feel close to their partners and to their babies.

Why is language unique to humans?

They had two children, and divorced after thirteen years of marriage.

The Importance of a Father in a Child's Life

Fatherhood Starts With Sperm Fathers are more than just sperm donors, but the DNA sperm carries is important. One father was baffled when his 4-month-old daughter stopped eating for two days and developed a week-long sleep disturbance after he shaved off his beard. The walls were plastered with photographs, old magazine pages and calendars of naked women.

No be me start am

Our programs, our research, our interventions, and our policies need to foster these connections.

How Men and Children Affect Each Other's Development • ZERO TO THREE

On his return, he met a fellow patient who convinced him to go to the island of Mallorca — which was then turning into a tourist destination for people from all over. If he did, then our existence would be utterly pointless and hollow as mere puppets.
