## Something of his Art: Walking to Lubeck with J. S. Bach

The family at Eisenach lived in a reasonably spacious home just above the town center, with rooms for apprentice musicians, and a large grain store.

## Johann Sebastian Bach

Bach's main reputation was not as a composer, but as an astoundingly gifted organ player and improviser, and consultant for organ repair.

## Johann Sebastian Bach: a detailed informative biography

Apart from a single fugue in Berlin, this is the only autograph manuscript of the second book to survive.

## Decoding the music masterpieces: Bach's The Art of Fugue

A collaboration with painter Hamidur Rahman resulted in the Shaheed Minar, a national monument in Dhaka commemorating the Bengali Language Movement demonstrations of 1952. Explore stories from women all over the globe in today's GoogleDoodle and share yours using HerStoryOurStory! He also encouraged him to study composition and set Sebastian to copying music by German organist composers such as Jakob Froberger, Johann Caspar Kerll and Pachelbel.

## Spinner

That he often references Trinitarian ideas in ternary relationships between chords and harmonies or use of triplet notes and repetitions of threes in themes and their developments, sometimes with subtle references, is not so arguable. Following the Spanish Civil War, her family was penalized by the new authoritarian government, causing her to be passed over for faculty promotions. To drag it into the glare of the concert hall is akin to displaying mediaeval altar triptychs in modern art museums.

## Die Kunst der Fuge, BWV 1080 (Bach, Johann Sebastian)

What we do know is that there are almost certainly 47 bars missing and that here Bach would have combined the main theme of the entire work with the other three themes of this mighty fugue. By that time fugue-playing had fallen into disuse and pianists were unable to perform this work without a pedal.

### **J.S. Bach: The Art of the Fugue (Kunst der Fuge), BWV 1080**

Intèrprets Hespèrion XX  
Bruce Dickey cornetto, Paolo Grazzi oboe da caccia, Charles Toet trombone, Claude Wassmer basson, Jordi Savall
