The Rev. J. Bryan Hehir to deliver Drell Lecture on nuclear weapons politics, ethics

To respond to these obstacles, it is crucial that the nuclear community develop effective and informed expertise on warhead modernization among government bodies and the NGO community and cultivate a common understanding of the benefits and risks associated with various warhead modernization approaches. With the President's issuance of new nuclear weapons employment guidance, this report is being provided in advance of implementation and, thus, fulfills the requirements of Section 491. Where concerns about compliance exist, the synergistic effect of multiple technical and management measures, supported by increased transparency and robust national technical means of intelligence collection, could reduce the risk that significant clandestine activities would go undetected and over time could build confidence that verification was effective.
