## INTERACTIONS BETWEEN THE MULTIPLIER ANALYSIS AND THE PRINCIPLE OF ACCELERATION Essay

Specifically, we undertake two types of regressions.

### Multiplier and the Determination of National Income

This means that if the entire new income created by an act of investment at each stage of the income generation process were spent by the people on buying consumer goods, then even a once-for-all increase in investment would go on creating extra income until the economy reached the stage of full employment, But MPC is rarely equal to 1. Pull factors should be compared over several time periods to determine trends.

### The Employment Multiplier

It is important to note that not all sectors of the local economy had a negative industrial mix.
