Moore talks about how, through magic, we bring the heart into play and become more able to regard the most ordinary aspects of daily life as sacred. Ashland, OR: White Cloud Press Young, Jonathan 2000. Thank you for this powerful summary of what I live by! Through our artistic drama of metaphor, we make commentary on the world and what it means to be human.

It is open to all those interested in archetypal perspectives. Using exercises, personal stories, and myths old and new, Keen and Fox show you how to understand better the story you are currently living- and how to take a more active role in writing the script of the story that you want to live. The individual is unconsciously living a myth rather than a life.

Finding our mythic ground

Our lives are lived outside of any meaningful context, because above all myth is meaning. An inspiring, practical book, greatly influenced by Joseph Campbell's work on myth, encouraging people to speak or write their personal stories and to interpret them through a mythic lens to better understand the narratives with which we frame our lives.

Finding our mythic ground

Recorded during a seminar weekend in Rowe, Massachusetts, this talk is a conflagration of ideas. Like Dante, we journey to the depths of our world, become its deepest truths to emerge later and share. Collingwood equated soul with feeling and considered that psychology had no business invading the realm of thought and ideas.

Your Mythic Journey: Finding Meaning in Your Life Through Writing and Storytelling (Inner Work Book): Sam Keen, Anne Valley

The author worked directly with Joseph Campbell The Power of Myth and has proven himself to be a noble student as well as a grand teacher. Our discussion in the previous chapter of the anima as a personified feminine idea continues this line of thinking. In this sense, your personal mythology is the story of your life seen looking backward.
