ALR

They are to be used only as a way to find relevant cases.

ALR

The conversion is performed by conducting a recursive read-off of the degraphed logical form into a tree structure.

RCSB PDB

Researchers can keep logs on paper, in folders on Westlaw or Lexis, or in another online citation management platform

Legal Research Strategy

Performing inflectional generation is indicated by block 422 in FIG. One aspect of the order model in the present invention that sets the work to be disclosed here apart from the models of Charniak and from prior generative parsing models is the use of semantic relations available to the generation task.
