## Neurosurgery Practice Questions and Answers

Our program is a minimum of 6 years with the opportunity of extending the length of training if one is interested in obtaining an advanced degree like a Masters or PhD. The ABNS is committed to doing what we can to reduce the risk of community spread.

## Neurosurgery Residency Program

The clipping of an aneurysm is performed under microscopic vision.

## Practice Areas

To explore CME programs offered by UR Neurosurgery, please see our.

## Practice Areas

The RAH, in addition to general neurosurgery, has a large complex spine practice. Our truly flexible 4th year allows each resident to tailor their training to their individual needs, whether it be research-oriented, clinical electives, or an enfolded fellowship. You may think you need to make important decisions quickly.
