However, in nearly every CEB studied, numerous mantle makers can be seen. If a young man was particularly pious he might manage to stay chaste until he married.

## Women in the 19th Century: Introduction

They got some support from the London Trades Council and after three weeks on strike, Bryant and May met all their demands. A family could consist of kin who may or may not have been coresident and it could also be a household unit consisting of members who may have been unrelated by marriage or blood. Their domestic work was still work, however, since it included sewing, cooking, and marketing, and required the supervision of children and often servants.

## women's suffrage

Therefore, the reason why black women are so undetectable in the archives is precisely because they desired it to be so. There is no denying, for a research such as this, what is required is a broad and comprehensive analysis of as many varieties of archives as possible. Kay and Barker also cite me as the source for their comments on the Victorian censuses.

During the nineteenth century, European women of all countries and social classes experienced dramatic and enduring changes in their familial, working and political lives.

## Women and Marriage in Nineteenth

It is clear, therefore, that there is a considerable body of opinion that holds that the censuses under-enumerated the work of women during the Victorian era. At the beginning of the century, women enjoyed few of the legal, social, or political rights that are now taken for granted in western

countries: they could not vote, could not sue or be sued, could not testify in court, had extremely limited control over personal property after marriage, were rarely granted legal custody of their children in cases of divorce, and were barred from institutions of higher education.

Particularly in the various juvenile temperance groups were women active in the local groups. Moreover, toward the end of the century, the biopolitics of each nation regarded power in terms of the quantity and quality of its population. As a consequence, many suffragists became involved in increasingly violent actions as time went on.

### **Women's Roles in Early Nineteenth**

Bioreasoning, or thinking about women in terms of their bodies and biology, shaped Western European attitudes during the nineteenth century, affecting gender identities, sexuality, and ideas of reproduction and sexuality. It is not simply the changing patterns of employment that appear in the census — the coming and going of different occupations over the years — but the fact that occupations known to be seasonal in nature, and not necessarily taking place at the time of year when the census was taken, appear in the CEBs. The need for the enfranchisement of women was finally recognized by most members of Parliament from all three major parties, and the resulting bill was passed by the in June 1917 and by the in February 1918.
