Werewolves in human form could be recognized by unibrows, hairy hand palms and same length of index and middle fingers. Though his father wanted him to follow in the family practice of medicine, his mother encouraged him to follow his passion. Word "bauljati" is used when somebody walks weirdly.

What does the devil look like?

According to local folklore, the bat-like or somewhat monkey-like creatures abduct children and carry them away to be eaten. The ties from the two help us to see how we are the same as many animals. He remained, however, a powerful god, and had important functions to perform for the souls of the dead.
