The plan features buildings that evoke Texas' past, including one that looks like a historic courthouse. It is their insistence on the importance of the physical presence of the past, of its artifacts and its architecture, that preserves them. You might think it's a rare and valuable book but don't know where to find its value? Pages may include limited notes and highlighting.

+Home and Connector Housing are named joint winners of the government's Home of 2030 competition

We love old architecture, and value the character of the West Side. It precisely contributes to what the Green Code is intended to achieve: an urban fabric comprised of houses and stacked units, interspersed with commercial and cultural buildings that generate activity. A first edition signed by the author will have even greater value.
