Global Environmental Change, 23 1 , 92—102. Altena has a track record of recognised good practices that facilitate the development of sustainable initiatives with a minimum of external resource input.

Transnational cooperation in a pandemic situation, the story of Active Citizens network

The innovativeness of national policy portfolios—Climate policy change in Austria, Germany, and the UK.

Transnational municipal networks: Harbingers of innovation for global adaptation governance?

Although it is not possible yet to quantify or even determine whether these actions will lead to actual GHG emissions reductions, Johnson et al. Expect results of the programme by the end of 2019: mapping of PED cases, PED framework, first joint actions, and establishment of a cities platform.

All networks

IPCC Guidelines for national greenhouse gas inventories. It is not about managing homelessness, but rather putting an end to it using the Housing First model and gathering accurate data.

LEADER Cooperation

International Journal of Urban Sustainable Development, 7 2 , 1—19. Cities, Europeanization and multi-level governance: Governing climate change through transnational municipal networks.

LEADER Cooperation

Re-growCity Transfer network focuses on the development of interventions that built on local capabilities to arrest and reverse long term social, economic and environmental decline. Some have their kids running around their house while doing a meeting on Zoom, some don't master Miro and other online collaborative tools yet, some are in quarantine because of covid, while some are mourning recent losses, etc. It analyses data from surveys and reports from desk-based research, and cross-references results using semi-structured interviews conducted with selected stakeholders by the main author.
