### Transurethral Resection (TUR) for Bladder Cancer

You may need to stay in the hospital 1 to 4 days. This creates a passageway, known as an ileal conduit, for urine to pass from the kidneys to the outside of the body.

### Transurethral Resection of Prostate Portland

General anesthesia where you are in a deep sleep is used for either type of cystectomy. Although no incision is made in the belly, TURBT is still considered a major surgery.

### TURBT Recovery, Complications, Outcomes and How It's Performed

The TURBT Procedure After anesthesia is given, a resectoscope an instrument with a telescope and small, electrified wire loop is inserted into the urethra until it reaches the bladder. A tool called a resectoscope is used to remove the cancer for and to burn away any remaining cancer cells. Things to think about include your expectation of the results of the surgery, the severity of your symptoms, and the possibility of having complications from the surgery.

### Trans urethral resection of bladder tumour (TURBT)

You may be instructed to avoid strenuous activity for about 3 weeks following TUR.
