## The Races of Man and their Distribution

This is an EXACT reproduction of a book published before 1923. Such difference of opinion stems from the fact that different people have different theories about racial evolution, and the particulars of mass migrations and resultant interbreeding make it difficult to trace a particular sub-sub-sub till infinity race to any of the four classical racial categories.

## The Races Of Man: And Their Geographical Distribution by Charles Pickering

Owing to these factors, only the broadest classification of the four major human races have been discussed in this article. So well understood is the course of navigation, that San Francisco,. The physical characters and culture of each race are described as far as it is at present known, and the author has in many cases to confess that the knowledge is, as yet.

The most prominent example of such a perpetual scientific debate is the theory of Aryan invasion of India, which claimed that the Dravidians were the original natives of the Indian landmass. THIS book gives a description of the various races of mankind as complete as appears to be possible within the compass of a small volume. These groups have physical features that are extremely Mongoloid in appearance and are typically found in Mongoloid populations that have adapted to living in extremely low temperatures and cold climatic conditions.

**The races of man, and their geographical distribution : Pickering, Charles, 1805**

This could be the reason behind the racial similarities between the Australian aborigines and the native inhabitants of the Andaman and Nicobar Islands in the Indian Ocean. These sub races are primarily based upon geographic location and language. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
