Quiet Revolution in Welfare Economics

The modern economic role of women emerged in four phases.

A Quiet Revolution in Welfare Economics, by Robin Hahnel et al.

The desire to modernize was also evident in the social sphere.

Quiet Revolution in Welfare Economics on JSTOR

And one of the important ways in which it is different from central planning is that it is incentive compatible, that is, actors have an incentive to report truthfully rather than an incentive to misrepresent their capabilities or preferences. Major accomplishments The State's expanded role led to the setting up of many new government departments and government-owned corporations during the 1960s and 1970s. Toland, and Mihaela David PDF with commentary at csis.
