Therefore, this study highlights the need to develop a next-generation K9 through OT analysis, and is expected to increase defense exports by maintaining the country's lead in artillery development. Finally, it considered defense reform and the worldwide development trend of self-propelled artillery. The second part is devoted to a doctrinal approach currently adopted by the Missile Forces and Artillery.

Статті в журналах: Corps of

It also endeavors to place the most notorious incidents in the broader context presented by the multiplicity of artillery attacks that took place in urban areas across Bosnia between 1992 and 1995.
