## ISO

I use this to manually set white balance. Released as the new safety and health standard in early 2018, ISO 45001 has a range of EHS benefits. The organization must be able to deliver what it is selling.

It places a greater emphasis on the control of processes especially planned changes and review of the consequences of unintended changes, and mitigating any adverse effects as necessary. The purpose of a Management Review meeting is to review and evaluate the effectiveness of your Management System, helping you to determine its continued suitability and adequacy.

### **Use ISO 45001 to improve safety & process efficiency**

Many industrial companies require registration by their own suppliers.

The next big challenge in implementing the Quality Management System is demonstrating the commitment of management by having the overlying policies defined and communicated to all levels of the organization. Organizations should also have systems in place to provide a back-up should IT systems crash.
