## Southeast Asia: opportunities and challenges

The second group is made up of those living in cities and near coasts and who have gained greatly from better infrastructure and market access. The number of filicide-suicides has increased considerably in the last decade because of the widespread use of charcoal-burning suicide, which makes a suicide pact easier to carry out.

## Southeast Asia: opportunities and challenges

Due to the impact of COVID-19, GDP of Asia-Pacific economies will be lowered by nearly 1% this year. For instance, Indonesia has increased its national budget for infrastructure spending by nearly 100 percent over 2016. An estimated 124 282 women died by suicide in the countries of the WHO South-East Asia Region in 2012, meaning that a little less than half of global suicides in women occurred in this region.

## 6 environmental challenges facing Southeast Asia (and what you can do)

However, the recessionary trends that have impacted global growth prospects and the negative impact these have had on the Chinese economy has created severe problems for the main ASEAN economies.

## Geographically close, digitally closer: India and SE Asia

Cooperation on water issues will be crucial in a heavily populated region, with disputes over water flows among Burma, Cambodia, China, and Laos, adding to the list of regional disputes. Walmart, for example, employed a partnership with Bharti, an Indian conglomerate, to move adroitly into the Indian retail sector. India, on the other hand, will average 7.

## The Biden era

Thus, new strategies are needed at national and regional levels to create an enabling environment for fostering green growth.

## **COVID**

Changing demographics Governments must help prepare young people to face the demands of an increasingly integrated economic region, through education and training. The Hong Kong suicide rate went up by more than 50% in the first 6 years and decreased by 25% in the later 6 years. For example, Australia and Hong Kong have similar suicide rates, but the gender ratios male-to-female are about 4 and 2, respectively.

### **Opportunities And Challenges For Southeast Asia: Forecast 2016**

The dearth of mental health services has been the catalyst for the emergence of nongovernmental organizations for mental health in the region. In these countries, there may be substantial underreporting. Unfortunately, these guidelines are often not followed by the countries in this region.
