Course Title: Secondary Physical Education and Health Teaching Methods

Penn State College Mission Statement:
Individuals from diverse backgrounds and of society, Penn State College cultivates the capacity and propensity for personal growth by fostering independent inquiry and promoting the values of knowledge and discovery. Through its teaching, research, and service, the College promotes the development of individuals who will contribute to making a vital contribution to the future of the region and the state.

Refresher Decision Matrix

- Foundational Knowledge
- Professional Dispositions & Integrity
- Professional Development

School of Education Mission Statement: The **Penn State College** is committed to preparing exemplary professionals in the field of education. Our faculty and staff of our teacher education units understand the importance of preparing teachers who are reflective practitioners. We are committed to preparing our teacher education candidates to be reflective professionals, knowledgeable in general studies, and prepared to meet the needs of all students. We are committed to preparing our teacher education candidates to be effective communicators and wise decision-makers in a democratic and ever-changing technological society. We are committed to preparing our teacher education candidates to be reflective professionals who are reflective learners based on our study and research of current research and professional writing. We encourage our teacher education candidates to be reflective professionals who are reflective learners based on our study and research of current research and professional writing, that will continue growth in three broad conceptual areas: functional knowledge, professional dispositions and integrity, and professional development.

Penn State College's commitment is individual attention, and needs, as evident in our teacher education programs. We also encourage our students to have their peers review their unique talents through peer teaching and peer evaluation. We are committed to providing our teacher education students with committed persons – teacher educators, community members, experts, all of us are engaged in our teacher education programs.

Benefits of Physical Education: How Innovative Teachers Help Students

A comment is given after every PE class.

7 Tips for Effective Classroom Management in Physical Education

Adopting strategies for transitions will improve efficiency.

Effective Classroom Management in Physical Education: Strategies for Beginning Teachers

My first step is to communicate with the classroom teacher and the parents, and come up with a behavior plan. This allows you to always face the students and stop off-task behavior as it is getting started. Despite the importance of classroom management, little information is available about how teachers gain and use knowledge about management in their classrooms.

7 Tips for Effective Classroom Management in Physical Education

Once students know what to expect, they will be able to channel their excitement and energy into meaningful action. When students have the opportunity to step away from their desks and move their bodies in a physical education class, they gain the benefits of mental health support, stress relief, heart health, and more.
