[Essays chiefly on the temperance question \[microform\] : also, poems on various subjects / W.A. Palli...](#)

There is little opportunity, during a grammar school or high school course, to influence the mind in favor of particular government policies and particular theories in science or literature or art. Most of the material dates from 1887-1893 and relates to courses offered at these institutions and are useful in the study of curriculum development.

The result in some cases has been a curious aberration in disciplinary methods--a freakishness that is inseparable from any sudden advance such as we are making. The small number of persons who were attracted by printed matter, in library or general publications, were entirely adults. Despite being known as a comedy, anyone who has read Inferno realizes that the story is full of symbolism, double entendres, political messages, allusions 2502 Words 11 Pages accomplishment.
