## Keisuke Takahashi

To a non-Japanese speaker this sounds obvious. After choosing Ryosuke over her forced marriage with Rin, she committed suicide due to abuses of Rin and torn between the loyalty between the two. However, many organizations that use the shogo title of hanshi also use the title of shihan.

## Takahashi Dojo

The orientation of the belt depends on the organization.

## About Takahashi Seisakusho

Master Okano's karate was greatly influenced by both Masters Gichin and Gigo Funakoshi and eventually this branch of Shotokan became known as Kenkojuku Shotokan. Unlike his older brother's calm demeanor, Keisuke was a hot-headed individual, he was known for driving with his emotions and his dislike for losing made him very arrogant. In 1977 Takahashi introduced their second triplet fluorite apochromat the TS-90 a 90mm x 1000mm and the 90S mount and the famous JP mount in 1979.

## The Shogo FAQ

Yes, it can get a little confusing! Takahashi also makes observatory telescopes which include: 350mm hyperbolic astrographs, 300 and 400mm Cassegrains, 200, 250 and 300mm triplet apochromatic refractors and the large EM-3500 mounts to carry them. Overall, not a very nice guy. When his brakes were cut out, Ryosuke and Ryuji saved him from crashing after putting both their cars in front of his bumper to help stop his car.

## Keisuke Takahashi

He is friends with and they are often seen together. Just like Keisuke, he was part of the Akagi RedSuns until the creation of Project D.

## **About Takahashi Seisakusho**

In the end, Keisuke turned her down reasonably because he wants to concentrate on his goal. Their manufacturing facilities are located in Urii, Japan with their headquarters located in the Itabahsi prefecture of Tokyo.
