

Voice of America - policies and problems

Association for Education in Journalism - Voice of America executives and correspondents at odds over news reporting and management issues

Description: -

Bias in News

The perception of biased coverage is real among multiple VOA reporters and editors. Biased coverage threatens the credibility of the overwhelming majority of VOA journalists who strive for fairness, balance and accuracy. It's vital that VOA leadership take visible steps to communicate that bias is unacceptable and that the integrity of VOA reporting is sacrosanct.

Recommendations

- Create a safe avenue for staffers to report bias concerns without fear of reprisal. Regularly remind staffers about the responsibility to report perceived bias. Put division directors on notice that they will be held accountable for bias in their services.
- Consider more frequent content audits to determine if bias is evident.
- In communications about bias, clarify the difference between bias and aggressive accountability reporting. Tough, authoritatively sourced coverage that calls out abuses of power is not biased.

What is Voice of America and Why Does Trump Hate Them?

Was this a talking point the VOA board of directions insisted they needed to put out for an upcoming event? VOA corrects errors or omissions in its reports, broadcasts, websites and social media sites at the earliest opportunity. I have been convinced that it must be a news medium in order to attract and hold audiences.

VOA reform push sparks propaganda fears

VOA will present the policies of the United States clearly and effectively, and will also present responsible discussions and opinion on these policies. It is true, as Mr.

Voice of America won't extend for foreign journalists

This is not from a lack of trying: Ms Tlisova was gracious and accepting of my criticism, and seemed interested in the truth, but the final edit was made by her editor, and I'm not thrilled with the result. I'd like to think I'm equally critical of the narrative provided by many governments.

What's Wrong with Radio Free Europe and Voice of America?

A few may feel Collier tells too much, including details about her most personal preoccupations.

Politics

The alarmist articles say more about the corporate media themselves than about the Voice of America. The Islamist police state under both reformist and fundamentalist factions has behaved in the same way. The idea is to be a trusted news source around the world, including in places where the news might run afoul of the truth thanks to state run media.

Doug Wead, author and presidential historian Moreover any insinuation that the Republican Party itself, or discussion that President Trump is a racist is certainly false on its face, said Wead. The United States has one vote, out of thirty four.
