For instance, video game developers tend to create game characters that mirror stereotypes of players as young white males, rather than the actual market demographics, which include a significant percent of black men and boys. As the second wife of fiery Black politico Adam Clayton Powell, she represented half of a new kind of Negro couple: educated, cultured, political, outspoken; a modern woman who didn't brook fools easily.

**Donald Bogle**

I admit that like Bogle I grew up watching many of these programs.
