Learning Mathematics

We have all seen so many hierarchical — sprawling boxes of letters and arrows arranged in inverted pyramids — and have been through so many budget, planning, and problem solving meetings, that we take all of this as a given, as if it had existed forever.

Hierarchy and Network: Two Structures, One Organization

Examples of these include an irrigation network and a network of streets or freeways.

Learning Mathematics: From Hierarchies to Networks (Studies in Mathematics Education) 1, Burton, Prof Leone, Burton, Leone

There are often points in the system at which a net flow either enters or leaves the system. Junction Rule 001735 At each of the junctions in the network, the total flow into that junction must equal the total flow out.

1.1.4: An Application to Network Flow

There are often points in the system at which a net flow either enters or leaves the system.

Learning Mathematics: From Hierarchies to Networks (Studies in Mathematics Education) 1, Burton, Prof Leone, Burton, Leone

Sometimes, a set comes equipped with a natural hierarchical structure. Find the possible flows along each street.

Hierarchy and Network: Two Structures, One Organization

Find the possible flows along each street.
