### Political economy

I see culture as intertwined with the social leg, but organizations like divide the social aspect into people and culture. The government, in their view, should limit taxes on agricultural products to ways that meet this goal.

### Classical economics

Thus, the economy is not conceived as a neutral platform of exchange and cooperation, but as historical and political constitution primarily characterized by asymmetric power relations, ideology and social conflicts. Examples include the influential works of Locke, Hume, Smith, and Ricardo. This view that you can and should study the economy in only one way, and going even one step further and basically redefining economics as a theory of everything, is very peculiar.
