Although we endeavour to maintain an up-to-date catalogue, on occasion we may not have the latest version of a document, including where it has not yet been provided through an international feed. By simplifying this previously dreaded task you can free up dedicated spreader trucks for other uses on fair weather days. We monitor conditions throughout the day and night and adjust our gritting plans as needed.

## Spreaders

Supervising staff who perform activities described in paragraph 1 or 2.

## Spreaders

Fifth present edition, February 2011. The traffic control sub-system, including the traffic control signal cabinet and internal devices such as timer, detection devices and associated hardware, but excluding conflict monitors. A signal lamp or a pedestrian control indication is not functioning.
