Why Do Doctors Choose to Go Into General Surgery? From simpler procedures like to treat conditions like hernia to complex pancreatic resections and weight loss surgery, our surgeons are committed to providing the best outcomes. The resident must acquire a thorough knowledge of the theoretical basis of general surgery, including its foundations in the basic medical sciences and research. General surgeons are surgical specialists who care for patients needing surgery on the abdomen, skin, breast, soft tissues, or endocrine system, which includes the esophagus, stomach, small bowel, colon, liver, pancreas, gallbladder, and bile ducts, among other organs.
