Sold A 22

Small screw barrel pistols such as the two pictured here fit easily into a pocket or a ladies hand warming muff.

Traditional Muzzle Loader

To begin with we might turn to an object from a maker whom we have already met, Charles William Lancaster and Co. While it is true that the Colt Paterson Revolver was invented before the end of the rendezvous period there is no evidence that they were known to the mountain men until after 1840. The pistol has a sliding trigger guard safety.

Antique Pistols and Revolvers

And a plain rifle type triangular sideplate with both of its iron side-bolts : one associated. Acceptance mark, beneath the bridled powder-pan. Two chiseled and etched ramrod pipes with finely detailed floral finials.

The Queen Anne pistol, 1660

The weapons were made by Edward London of London Wall, in the first half of the 19th century.

Sold A 22

Two silver ramrod pipes and its finely embossed silver sideplate with a finely detailed Stand of Arms.
