Intellectual Property Protection And The Pharmaceutical Industry

Second, the period following the introduction of patents will see new dynamic competition among patented products.

Search for existing patents

New pharmaceuticals that result from strong patent protection are saving lives, money and improving the quality of life of patients around-the-world. Purely artistic and literary works are not patentable, but a wide range of subject matter is able to be protected by patent.

Pharmaceutical patent extensions in New Zealand 1953

But international trade law states that any requirement to negotiate with the patent owner may be waived in the case of a national emergency or other circumstances of extreme urgency.

The big barriers to global vaccination: patent rights, national self

It is clear, therefore, that every nation's interest is in universal vaccination.

suven life: Suven Life gets patent from New Zealand for neurological drug

Lower order classifications can be useful to narrow a search where a large number of documents are retrieved eg selecting a subclass code to find electric powered mouse traps. For example, as of January 20, with a population less than 10 million than in Africa and Latin America combined.
