## Traces of Ancient Rome in the Modern World

Meanwhile, Humboldt used empirical method to study the indigenous people in the New World, regarded as a most important work in human geography. In later periods of the 960—1279 and 1368—1644 , there were much more systematic and professional approaches to geographic literature. PREFACE TO THE SEVENTH EDITION.

## The Geography of Thought

The southern portion of Africa was unknown, as was the northern portion of Europe and Asia, so it was believed that they were circled by a sea. Instruments and principles used included for determining direction, for measuring horizontal angles, and without which the creation of perfectly straight stretches, some as long as 35 miles, would have been impossible.

## A New System of Geography, Ancient and Modern, For the use of Schools by Morse, Jedidiah D.D. (Sidney Edwards Morse, A.M)

Library of Congress, Washington, D. South of Pannonia, bounded on the West by the Adriatic, on the East by Mcesia, are the Illyricae Gentes, or Illyricum, the two principal divisions of which are Liburnia and Dalmatia ; the former is now part of Croatia, the latter retains its name.

## Settlements

In Pannonia Inferior, on the river Savus or Saave, is the city of Sinnium, so celebrated in the latter ages of the Roman Empire, and the district is still called Sirmia. One of the great works of this time was Humboldt's Kosmos: a sketch of a physical description of the Universe, the first volume of which was published in German in 1845.
